

United Road is partnering with **Drivers Legal Plan (DLP)** making their legal representation services available to our professional car haulers. Our company in no way endorses or tolerates breaking the law, however, we understand that CDL drivers are constant targets for enforcement agencies. That is precisely why we offer **Drivers Legal Plan** to you.

The FMCSA (Federal Motor Carrier Safety Administration) mandates that a driver and carrier's roadside record will effectively determine the frequency of inspection. You must keep crippling points off your SMS (Safety Measurement System) score. At **United Road**, we understand that truck drivers are routinely targeted, so don't make the mistake of letting unnecessary traffic convictions damage your driving record and earning power. We have found you the best Truckers' Attorneys in the U.S. who stand ready to protect your livelihood.

Drivers Legal Plan is the most experienced CDL defense law firm in the country, having handled over 350,000 cases, and favorably affecting an incredible 95% of them. Now, they will automatically and FREE of charge file a DataQ challenge received with a corresponding citation for a **DLP** member to try to keep those career-damaging CSA points off your record.

As you are aware, any violation in your personal vehicle counts against your CDL, just as if you were in your truck. **Drivers Legal Plan** covers you 24/7, in any vehicle you drive.

This Plan was designed by truckers so it is affordable and keeps any out-of-pocket costs to a minimum. If you do need legal assistance, you can now afford the best.

It costs just \$12.91 per month to be in **Drivers Legal Plan**. This amount is deducted monthly from your paycheck or settlement. **DLP** attorneys will handle any moving or non-moving violation, including 'serious' CDL offenses, start-to-finish for you for only \$100 (\$250 for an accident not involving loss of life or limb). In the case of an extended trial, this could save you thousands in legal fees. Other legal matters, including alleged drug and alcohol violations, can be handled by **DLP** Attorneys for 1/3 off their normal agreed-in-advance flat fees, resulting in even more significant savings.

Coverage will begin immediately upon enrollment; we suggest you "Don't drive without it." If you have any questions, call **Drivers Legal Plan** at **(800) 417-3552**.
