Referral Program Details

Qualified Referrals

- Carhaul equipped Independent Contractor candidates leased on with United Road
- Qualified Company Driver candidates hired by United Road

There is no limit to the number of Independent Contractor or Company Driver candidates that you can refer during this period. Each individual truck and Driver pairing will be considered an "Independent Contractor" at the time of leasing. This does not include current Independent Contractors that purchase new or replacement equipment to build their fleet.

United Road management reserves the right to select for hire/lease or disqualify any applicant based on Company standards which include background checks, personal interviews, and equipment quality.

Referral Payment Terms

50% is earned when the referred Independent Contractor and/or Company Driver completes 30 days with United Road and the second 50% is earned when the referred Independent Contractor and/or Company Driver completes 90 days with United Road.

The placement of job advertisements or postings is restricted to United Road management. The intent of the referral program is to talk to drivers you know or meet about the benefits of working with United Road, therefore, placing ads (e.g. Craigslist) is prohibited.

Independent Contractor and Company Driver candidates will be ineligible for referral if United Road is already aware of and reviewing the referred individual's qualifications. To qualify, the applicant must use the United Road online application.

The referred individual cannot be a current Company Driver or rehire that has been away from United Road for less than one year, and both the referral and referrer must be active at the time of payment. Only the current contractor or employee who initially refers the candidate is eligible for the referral payout, and the referred candidate must list the current Independent Contractor or employee on his or her on-line application as having been referred. Applicability to a referral program is based on the candidate's hire date. All referral payments will be made on regularly scheduled settlement days. Terminal and Region Management and Executive positions are not eligible (but still encouraged to recruit). Eligibility questions will be reviewed and resolved by the appropriate area Vice President and the Sr. Vice President, People & Safety, whose decisions are final.
